Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with hands-on expertise in electrical maintenance, hardware fault finding, and microcontroller architectures. Proven ability to execute preventative and corrective technical procedures, manage diagnostic data, and collaborate effectively within multidisciplinary technical teams.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Supervised Professional Internship

National Technological University (UTN) | *Córdoba, Argentina* | *July – December 2023*

- Executed electrical maintenance, fault finding, diagnosing, and repair on complex robotic control hardware.
- Designed and constructed control hardware and performed PCB prototyping and testing.
- Programmed microcontrollers and implemented sensor communication systems for hardware validation.

Technical Team Coordinator

Technology Cluster | *La Rioja, Argentina* | *April 2025 – June 2026*

- Carried out preventative and corrective maintenance tasks for advanced robotic and AI-driven systems.
- Architected AI-integrated software and designed custom PCBs for fault-tolerant hardware operations.
- Managed data acquisition and system diagnostics to review and report on technical findings.

Electronic Engineering Final Project

National Technological University (UTN) | *Córdoba, Argentina* | *August – December 2024*

- Engineered and tested a functional hardware model, ensuring reliable system integration using communication protocols.
- Executed selection, testing, and integration of high-frequency electronic components.
- Documented experimental procedures and maintained accurate records of technical findings.

TECHNICAL SKILLS

- Programming: C++, Python, Matlab.
- Hardware & Design: PCB Design (KiCad), 3D Modeling (SolidWorks, Fusion 360), FPGA, Fault Finding & Diagnostics.
- Communication Protocols: UART, SPI, I2C, LoRa.
- Embedded Systems & Firmware: Microcontrollers (STM32/ESP32/AVR), RTOS, Firmware Debugging.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
