

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with a strong background in software development and programming. Proficient in C++ and Python, with proven hands-on experience in backend architectures, database management, and collaborative software engineering projects.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures using Django and MySQL.
- Contributed to the maintenance and optimization of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the backend development of a new 12th module dedicated to user payment management.
- Onboarded and trained new team members on the tech stack and Scrum methodologies, improving team velocity and workflow alignment.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed software applications for advanced robotic systems utilizing data acquisition and computer vision.
- Architected AI-integrated software solutions and collaborated closely with multidisciplinary development teams.
- Conducted technical training programs and collaborated on software documentation standards.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for CubeSat payload and developed firmware for ground station communication systems.
- Integrated sensors using I2C and SPI communication protocols ensuring robust data exchange.
- Documented experimental procedures and maintained clean, organized project repositories.

TECHNICAL SKILLS

- Programming: C++, Python, HTML/CSS, Git, GitHub.
- Software & Databases: Backend with Django, MySQL, Linux, REST APIs.
- Embedded Systems & Tools: Microcontrollers (STM32/ESP32), Firmware Debugging, RTOS.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
