

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with hands-on experience in experimental data collection, laboratory operations, and technical documentation. Highly organized and detail-oriented, with a proven ability to manage technical projects, execute operational tasks, and collaborate effectively in multidisciplinary environments.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Managed day-to-day technical operations and coordinated project workflows within a multidisciplinary research environment.
- Collected, recorded, and analyzed experimental data to support rigorous project outcomes and technical developments.
- Maintained equipment and operational systems, ensuring strict adherence to quality and safety procedures.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Executed detailed planning, testing, and operational tasks for experimental research and technology development work.
- Collected, recorded, and managed experimental data to support research outcomes and validate functional models.
- Documented experimental procedures and maintained accurate records of all results in accordance with high technical standards.

Supervised Professional Internship

National Technological University (UTN) | Córdoba, Argentina | July – December 2023

- Assisted with day-to-day laboratory and research operations, contributing to practical engineering and testing activities.
- Monitored, summarized, and recorded experimental results to support research and development milestones.
- Communicated openly and effectively with team members and supervisors to ensure smooth operational support and collaboration.

TECHNICAL SKILLS

- Programming & Data: C++, Python, Matlab, Data Recording & Analysis.
- Laboratory & Operations: Experimental Setup, Equipment Maintenance, Technical Documentation, Safety Procedures.
- Core Competencies: Operational Support, Problem Solving, Cross-functional Communication, Project Assistance.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
