

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with strong programming capabilities and a collaborative approach to software development. Proficient in modern web technologies, programming logic, and cross-functional teamwork, with a proven ability to deliver robust digital solutions and maintain complex systems.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures using Django and MySQL, ensuring robust data management.
- Contributed to the maintenance and optimization of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the backend development of a new 12th module dedicated to user payment management.
- Onboarded and trained new team members on the tech stack and Scrum methodologies, improving team velocity and workflow alignment.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed an AI-driven humanoid robot based on the InMoov project, utilizing data acquisition and software integration.
- Architected AI-integrated software and designed custom system components for advanced technological solutions.
- Conducted technical training programs and collaborated closely with multidisciplinary teams to deliver technical objectives.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for CubeSat payload using LoRa communication protocols.
- Executed selection and integration of high-frequency electronic components and system interfaces.
- Developed firmware and documented technical procedures to ensure seamless system communication and integration.

TECHNICAL SKILLS

- Programming: C++, Python, HTML/CSS, JavaScript, Git, Linux.
- Web & Software: Backend with Django, UI/UX Principles, API Integration, Agile/Scrum.
- Engineering & Problem Solving: Technical Documentation, Cross-functional Collaboration, System Testing.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
