

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, specializing in AI-driven systems, software architecture, and intelligent agent development. Proficient in Python, C++, and cloud-integrated solutions, with a strong capability to design scalable RAG architectures and manage complex machine learning projects.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed an AI-driven humanoid robot utilizing data acquisition and advanced computer vision.
- Architected AI-integrated software and designed custom hardware systems for intelligent automation.
- Conducted technical training programs and guided teams in innovative technology implementations.

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures using Django and MySQL, ensuring robust data handling.
- Contributed to the optimization of a comprehensive management system featuring integrated data modules.
- Spearheaded the backend development of a new module dedicated to user management and system integration.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for payload data processing using reliable communication protocols.
- Executed integration of electronic components and sensor communication systems using I2C and SPI.
- Developed firmware and documented technical and experimental procedures for communication platforms.

TECHNICAL SKILLS

- Programming: Python, C++, Matlab, HTML/CSS.
- Software & AI: AI Software Development, Backend with Django, GIT, Linux, ROS, RTOS, Cloud Integration.
- Hardware & Communication: Microcontrollers, PCB Design (KiCad), UART, SPI, I2C, LoRa.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
