

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with a strong background in backend systems, databases, and AI-driven projects. Highly proficient in Python and troubleshooting, with a proven ability to manage technical integrations and support R&D systems from prototyping to implementation.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed, maintained, and troubleshoot complex backend architectures using Django and MySQL.
- Contributed to the maintenance and optimization of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the backend development of a new 12th module dedicated to user payment management.
- Onboarded and trained new team members on the tech stack and Scrum methodologies, improving team velocity and workflow alignment.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed, developed, and optimized an AI-driven humanoid robot based on the InMoov project, utilizing data acquisition and computer vision.
- Architected AI-integrated software and designed custom PCBs for advanced robotic systems.
- Conducted technical training programs in 3D Printing and Introductory Robotics.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for CubeSat payload using LoRa.
- Executed selection and integration of high-frequency (HF) electronic components.
- Integrated sensors using I2C and SPI communication protocols.
- Developed firmware for ground station communication systems.
- Documented experimental procedures.

TECHNICAL SKILLS

- Programming: Python, C++, Matlab, SQL.
- Software & AI: AI Software Development, Backend with Django & REST APIs, HTML/CSS, Git, Linux, ROS, RTOS.
- Hardware & Design: PCB Design (KiCad), 3D Modeling (SolidWorks, Fusion 360), FPGA.
- Communication Protocols: UART, SPI, I2C, LoRa.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
