

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with a strong background in software development and programming. Proficient in C++ and Python, with proven ability to collaborate in cross-functional teams and build maintainable code following software engineering best practices.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures using Django, MySQL, and REST APIs, ensuring efficient database development.
- Contributed to the maintenance, optimization, and testing of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the backend development of a new 12th module dedicated to user payment management.
- Participated in Agile ceremonies, sprint planning, and code reviews, collaborating closely with product teams.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed software applications for robotic systems, utilizing data acquisition and writing clean, maintainable code.
- Architected integrated software solutions and collaborated with cross-functional teams to troubleshoot and resolve software issues.
- Conducted technical training programs and documented development processes to support team learning and knowledge sharing.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional software model for CubeSat payload communication systems using C++ and Python.
- Integrated sensors and communication protocols, writing efficient firmware and assisting in debugging system issues.
- Documented experimental procedures and software development records adhering to engineering standards.

TECHNICAL SKILLS

- Programming: C++, Python, HTML/CSS, Git, REST APIs.
- Software & Databases: Backend with Django, MySQL, Linux, Agile Methodologies, SCRUM.
- Embedded & Hardware: Microcontrollers (STM32/ESP32), Firmware Debugging, PCB Design.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
