

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Versatile Electronic Engineer based in Melbourne with a strong foundation in software development, backend systems, and scalable application design. Highly proficient in C/C++, Python, and cross-functional collaboration, with a proactive mindset ready to contribute to integrated cloud-based platforms and complex technical solutions.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures using Django and MySQL, ensuring scalable solutions and reliable application performance.
- Spearheaded the backend development of a new module dedicated to user payment management, enhancing integrated platform capabilities.
- Collaborated closely with cross-functional teams, onboarding and training new members on tech stacks and agile methodologies to align with project goals.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Architected and developed integrated software solutions, ensuring seamless system integration and robust operational performance.
- Managed R&D projects from conception to implementation, aligning technical deliverables with broader business objectives.
- Conducted technical training programs, demonstrating strong communication and leadership across multidisciplinary teams.

Supervised Professional Internship

National Technological University (UTN) | Córdoba, Argentina | July – December 2023

- Contributed to the HEXSAR project by designing control hardware and programming microcontrollers for complex robotic systems.
- Implemented sensor communication systems and ensured high reliability through rigorous testing and problem-solving.
- Collaborated with peers to deliver integrated engineering solutions within tight project timelines.

TECHNICAL SKILLS

- Programming: C++, Python, Matlab, HTML/CSS.
- Software & Cloud: Backend Development (Django), Git, Linux, ROS, RTOS, Software Integration.
- Hardware & Systems: Microcontrollers (STM32/ESP32/AVR), PCB Design (KiCad), Communication Protocols (UART, SPI, I2C, LoRa).

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
