

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | [linkedin.com/in/javinnieto/](https://www.linkedin.com/in/javinnieto/)

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne with a strong background in C/C++ embedded software development and algorithm optimization. Proven ability to contribute clean, production-quality code, collaborate in technical teams, and manage complex software systems from prototyping to implementation.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures and system components using Python and MySQL.
- Contributed to the maintenance, optimization, and debugging of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the development of a new 12th module, identifying and resolving technical challenges to ensure optimal performance.
- Onboarded and trained new team members, driving code quality discussions and aligning deliverables with best practices.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed an AI-driven humanoid robot based on the InMoov project, implementing complex algorithms and data acquisition.
- Architected integrated software solutions and contributed to collaborative technical developments.
- Conducted technical training programs and established best practices for software and hardware documentation.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for CubeSat payload using LoRa communication protocols.
- Developed robust firmware for ground station communication systems, focusing on performance and reliability.
- Documented experimental procedures and technical components to facilitate knowledge sharing.

TECHNICAL SKILLS

- Programming: C++, Python, Matlab, GIT.
- Software & Systems: Backend Development, Linux, ROS, RTOS, Firmware Debugging.
- Hardware & Communication: PCB Design (KiCad), UART, SPI, I2C, LoRa.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
