

Javier Nicolas Nieto

Electronic Engineer

+61 458 319 336 | javiernieto.ni@gmail.com | Melbourne, VIC 3000 | linkedin.com/in/javinnieto/

PROFESSIONAL PROFILE

Electronic Engineer (Honours) based in Melbourne on a Working Holiday Visa, with a strong background in software development and system algorithms. Proficient in C++ and Python programming, with a proven ability to contribute high-quality code and collaborate on complex technical projects.

EDUCATION

- Bachelor of Electronic Engineering (Honours) | National Technological University | Córdoba, Argentina | Graduated: 2025

PROFESSIONAL EXPERIENCE

Backend Developer

AVEIT | Córdoba, Argentina | January - December 2024

- Developed and maintained complex backend architectures and system components using Python and MySQL.
- Contributed to the optimization and maintenance of a comprehensive management system featuring 11 integrated modules.
- Spearheaded the backend development of a new 12th module, ensuring production-quality code and documentation.
- Onboarded and collaborated with team members using Git and agile methodologies to align deliverables with project goals.

Technical Team Coordinator

Technology Cluster | La Rioja, Argentina | April 2025 – June 2026

- Designed and developed software architecture for an AI-driven humanoid robot, utilizing data acquisition and computer vision.
- Architected AI-integrated software and system components for advanced robotic platforms.
- Conducted technical training programs and collaborated with stakeholders to promote best practices in software development.

Electronic Engineering Final Project

National Technological University (UTN) | Córdoba, Argentina | August – December 2024

- Engineered a functional model for CubeSat payload using LoRa communication protocols.
- Developed firmware and optimized system components for ground station communication systems.
- Documented experimental procedures and technical specifications to support knowledge sharing.

TECHNICAL SKILLS

- Programming: C++, Python, Matlab, GIT.
- Software & Systems: Backend with Django, Linux, ROS, RTOS, Firmware Debugging.
- Communication Protocols: UART, SPI, I2C, LoRa.

LANGUAGES

- Spanish: Native.
- English: Advanced (IELTS Overall Band Score: 7 [C1]).
